

EU 510 – Ultra-High-Speed solution with dust control

For high-gloss finish on vinyl, linoleum and stone floors. The flexible pad system provides a perfect and glossy finish. A low noise level and passive dust control ensures a convenient operation.

Park position

Pad pressure, adjustable

Integrated dust control

Applications

Polishing of coated PVC floors, linoleum floors, stone floors, spray cleaning

Technical data

Ref. No.	614403	
drive	right gear	
Voltage	V	230
Frequency	Hz	50
Power input	W	1600
Working width	mm	510
Operating weight	kg	44
Tool speed	r.p.m.	1480
pad pressure	g/cm ²	1 – 11
Torque	Nm	7
Noise level	dB(A)	58

Special characteristics

- High area coverage
- Very low noise level
- Pad pressure adjustable
- Integrated dust control
- Safe and easy in application
- Compact in transportation
