

WSA 700P – Slurry vacuum for professional use

The vacuum for dirty water when high performance is required, for vacuuming dirty water and grinding sludge.

Including hand tube with floor suction nozzle and rubber strip, hose (length 5 m).

Swivel-mounted collection container for easy emptying of waste water

Pump with float switch

Waste water drain cock

Technical data

Ref. No.		617005
Voltage	V	230
Frequency	Hz	50/60
Power output	kW	2
Operating weight	kg	32
Dimensions LxWxH	cm	60 x 56 x 107
Noise Level	dB(A)	78
Suction hose, antistatic	m	5
Pump	W	750
Pump capacity	l/min	400

Special characteristics

- Overflow protection
- Swivel-mounted collection container for easy emptying of waste water
- Pump with float switch
- Waste water drain cock
