

## DSM 530S – Powerful grinder for demanding applications

The DSM 530S combines high grinding performance and user-friendly control. A powerful drive and robust design make it ideal for severe working conditions.

### Applications

Grinding concrete, screed, industrial floors, asphalt, sticking of concrete, screed and asphalt, large-scale renovation, remove adhesives, coatings, fillers, regulate uneven floors, grinding and polishing concrete, screed, asphalt, natural stone, terrace

ADS: Anti-shock transmission mounting

Ergonomic handle bar

### Technical data

|                         |        |                    |
|-------------------------|--------|--------------------|
| Ref. No.                |        | 711502             |
| Voltage                 | V      | 400                |
| Frequency               | Hz     | 50                 |
| Power output            | kW     | 7.5                |
| Working width           | mm     | 530                |
| No. of tools            | mm     | 3 x 230            |
| Grinding pressure, max. | kg     | 165                |
| Operating weight        | kg     | 253                |
| Edge distance           | mm     | 10                 |
| Tool speed              | r.p.m. | 400 – 1200         |
| Tank                    | l      | 15                 |
| ∅-Dust control          | mm     | 76                 |
| Tool mount              |        | ETX1, ETX2, Velcro |

### Special characteristics

- ETX – Tool exchange
- DIF – Diamond floating device
- Ergonomical handle design
- MOP – Motor overload protection
- Counter rotating tools
- Speed control
- Tool turning direction
- Dead man switch
- Power indicator
- For heavy duty work
- High grinding performance
- Easy to use
