

BEF 320V

BEF 320V – Petrol

Innovative milling technology for large areas with up to 30 % increase in performance. An increased cutter impact performance and the even advance via a 4 x 4 all-wheel drive are a guarantee for a high milling performance even in harsh application conditions on concrete surfaces and coatings.

Applications

Removal of uneven floors, supernatants, remove markers, removing road markings, milling off coatings, deep removal of concrete and screed floors

Drum position in front = uniform surface finish

Foot lever for transport position = fast machine relocation

Handle with vibration protection = improved ergonomics

Technical data		Equipment variants	
Ref. No.		717010	717011
drive		Petrol	
Power output	kW	8.7	
Working width	mm	320	
Operating weight	kg	344	
Edge distance	mm	72	
Tank	l	6.1	
Ø-Dust control	mm	76	
Dimensions L x W x H	cm	148 x 65,3 x 112	
Cutters		carbide cutters	peeling cutters

Special characteristics
Micro depth control
Drum axle
Drum in front, thus no copy effect (System Schwamborn)
Quick drum lowering/lifting
Drum with bushes, longer service life
Infinitely variable, 4 x 4 all-wheel drive
Drive, forward + reverse
Crane hook
Ergonomic handle, adjustable
